RE: SR 519 Phase 2 Concurrence

Dear Mr. Dye:

Thank you for your April 25, 2006 letter requesting concurrence on SR 519 Phase 2 project direction.

The Washington State Public Stadium Authority supports the "Go" option. Our support is for the full option as stated in your letter, including the highway concepts identified in the Feasibility Study as well as the pedestrian overpass and local connector to South Royal Brougham Way.

Thank you for your continued work on this issue. We look forward to seeing this next phase completed.

Sincerely,

A handwritten signature in cursive script that reads "Ann Kawasaki Romero".

Ann Kawasaki Romero
